Objective

I am a highly motivated, growth, and result-oriented UI/UX Designer with a BSc in Computer Science. I am keen on delivering products that captivate audiences, drive user engagement, and create lasting impressions and great on-brand experiences for institutions across the digital solutions landscape. I have worked on delivering various digital product designs through a series of internships. I am currently seeking an opportunity to apply both my UI/UX and product design skills to solve problems while helping sustain and heighten user experiences.

Education

- Southwestern University, Ogun State** 2018
B.Sc. Computer Science

Experience

- UI/UX DESIGNER** 1st January 2025 - 31st January 2025
FortiTrack
 - ✓ Designed an intuitive interface for IT asset management and real-time tracking.
 - ✓ Developed dashboards for predictive analytics, compliance automation, and reporting.
 - ✓ Conducted UX research to improve user workflows and simplify asset monitoring.
 - ✓ Created scalable design systems for web-based enterprise applications.
- UI/UX DESIGNER** December 2024 - Till date
Idenxia
 - ✓ Designed Leinzr, a personalized photo printing and customization app.
 - ✓ Developed wireframes and prototypes to optimize the app's user journey.
 - ✓ Conducted usability tests to ensure an intuitive and accessible design.
 - ✓ Collaborated with cross-functional teams to align the app with market needs.
- PRODUCT DESIGNER** September 2024 - Till date
Vnicom Solutions Limited
 - ✓ Led user research, iteratively refined designs based on feedback, and collaborated cross-functionally to create intuitive interfaces aligned with brand identity and accessibility standards, driving positive user experiences for a Community Development Association Management System.
 - ✓ Set design requirements based on information from internal teams and user research.
 - ✓ Modify and revise existing designs to meet changing customer preferences.
 - ✓ Collaborate with the rest of the team including the senior product designer to gain insights and a different perspective
- PRODUCT DESIGNER - INTERNSHIP** June 2024 - November 2024
Dev and Design
 - ✓ Led a team in conducting comprehensive user research, wireframing, and prototyping for an AI Powered Supplier Relationship Management application.
 - ✓ Utilized tools such as Figma, Adobe Photoshop, and Canva to analyze user needs and behaviors, resulting in actionable insights.
 - ✓ Implemented usability testing methodologies to gather valuable feedback and iteratively refine designs for enhanced user experience.
 - ✓ Identify new product improvement opportunities.
- LEAD DESIGNER** 2023 - Till date
Vnicom Solutions Limited
 - ✓ Led the design and development of multiple digital products, including Turnify and FortiTrack.
 - ✓ Created intuitive UI/UX solutions for enterprise and consumer-facing applications.
 - ✓ Conducted user research, prototyping, and usability testing to refine product experiences.
 - ✓ Collaborated with development teams to ensure seamless design implementation.

✓ Designed responsive and scalable interfaces for web and mobile platforms.

- **USER INTERFACE DESIGNER - INTERNSHIP**
Tech4Dev

May 2023 -

Underwent a month of boot camp where I learned and engaged in implementing user interfaces.

Projects

- **mycdaonline: A Community and Property Management Software**

Created clear information architecture and user flows for easy navigation. Designed dashboards in Figma for billing, transaction history, and PDF receipt downloads. Integrated transaction search and filter options for improved accessibility.

- **AI-powered Supplier Relationship Management Application**

Contributed to the design of an AI-driven platform to streamline supplier relationships, enhance procurement efficiency, and provide insights into supplier performance. Developed intuitive interfaces for seamless navigation and real-time analytics, supporting better decision-making in supplier management.

- **Mental Health App: A Support and Wellness Platform**

Worked on a mental health app aimed at providing users with tools and resources for emotional support, wellness tracking, and mindfulness. Designed user-friendly interfaces that enhance accessibility and encourage user engagement for improved mental well-being.

TECH STACK

- **Interface Design and Wireframing:** Figma, Canva
- **Collaboration:** Figma, Slack, Discord, Jira
- **Documentation:** Medium, Behance

Certifications

- Certificate in UI/UX Design by Dev and Design - 2024
